...Leadership

Welcome to the Island.

The word “island” commonly yields a relaxing thought. However, as a leader, you may know a different meaning. Ever heard “it’s lonely at the top?”

Our best advice is to accept that as a leader there may be others who never embrace your vision. Your greatest challenge is to make certain that your vision is solid, realistic, and worthy of pursuit.

Joining beneficial support groups can enable you to share your challenges with others who are living on similar “islands”. Perhaps they can help you. And, there may be value in enlisting the services of a mentor to encourage, guide, and hold you accountable.

Seeking help is not a sign of weakness, but rather a show of strength and wisdom.

Ponder This...

Who would I place on my personal board of directors?
