

A weekly message to help your organization achieve

# MAXIMUM...

January 12, 2010 – Issue 37

## MAXFACT #20

*"You're never beaten until you admit it."*

– General George S. Patton

### The unknown is the root of fear...and therefore defeat.

The best way to conquer the unknown is to solicit assistance from those who do know, who have been there, and who have done it.

Don't let the shackles of the unknown restrain and stifle you.

## ...VICTORY

Today's message is excerpted from Joel Osteen...

"Many people are missing out on an abundant life of joy, peace, and victory because they keep giving into fear. They are afraid to make a decision, afraid to confront issues, and afraid of the future. But, we don't have to live that way.

You have to make a decision to deal aggressively

with fear. You can't be passive and expect to live in victory. The only way to conquer fear is to confront it head on. As long as you're running from your fears, ignoring them, or sweeping them under the rug, you're not going to get any better. Refusing to deal with fear doesn't make it go away. Instead, **decide to be finished with fear. Be strong-willed and determined.**"

Please allow this message to sink in as you face the New Year.

We invite you to share this memo with a friend or colleague. They will be glad you did.

## Ponder This...

Does fear of success or fear of failure influence MY life?
